Questions to ponder

- **Reflection-in-action (Schön, 1987)** – for professionals in IO, QA, student affairs only, or open to other critical areas?
- **Ways of thinking and practicing (Entwistle and Hounsell, 2007)** – In what context? For who, and to what end?
- **Acknowledging the influence of power within the community (Boud and Walker, 1998)** – Ground rules? Can anyone contribute in a nurturing environment, sans affiliations & appointments?
