

## EUROPEAN UNION SUPPORT TO HIGHER EDUCATION IN THE ASEAN REGION

### AVEC PORTAL

AVEC (ASEAN Virtual Exchange and COIL) portal is an innovative digital platform that can be used by SHARE Partner Universities and other Higher Education Institutions (HEIs) in the ASEAN region to:

1. Learn about Virtual Exchange (VE) or COIL pedagogy and build their capacity to be able to apply the pedagogy
2. Develop VE/COIL courses together by universities, in collaboration with their teaching partner overseas
3. Conduct the course successfully and provide proper assessment feedback to the participating students

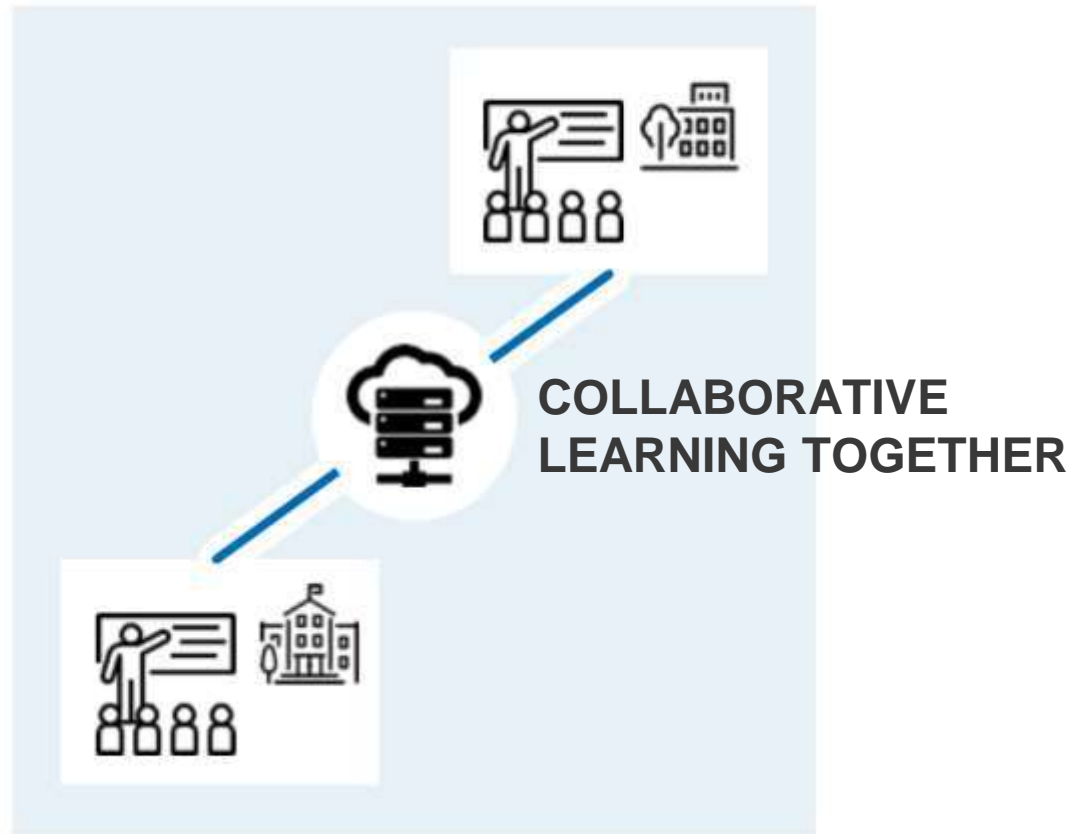

**What is, COIL?**

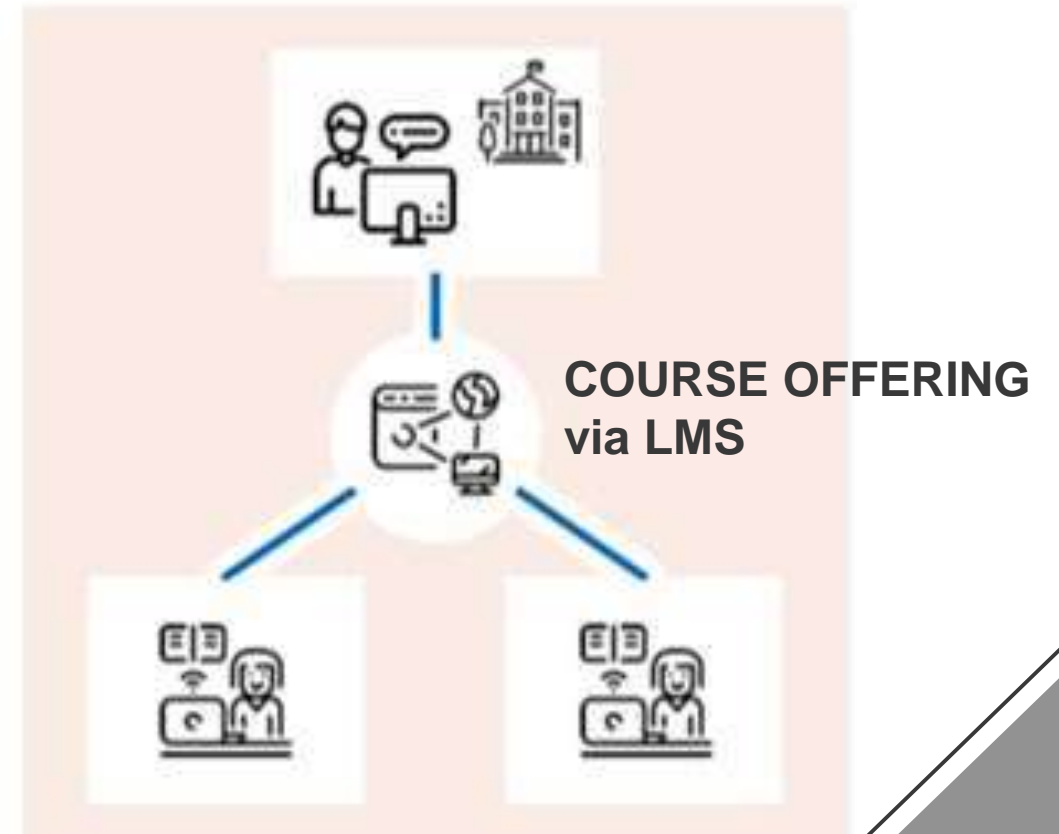

Student Engagement  
Social Learning  
Project-based Learning

Course Sharing among institutions  
If done synchronously, it can be socially engaging | many are on-demand based

# SHARE MAPPING AND IDENTIFICATION

Study of Virtual Exchange Schemes in ASEAN

February 2022

## Objectives

The objective of this study is to map the implementation of **virtual exchange** schemes by universities in the ASEAN region. The objectives of this mapping research are to:

1. Identify obstacles in implementing virtual exchange schemes.
2. Specify existing virtual exchange schemes, i.e., duration, type of platform used, maximum number of students per course, number of transferable credits, etc.
3. Grasp the status quo of support provided by universities or institutions for their respective students participating in virtual exchange schemes.
4. Describe academic and non-academic activities implemented in the virtual exchange scheme.
5. Suggest evidence-based recommendations for implementing a region-wide virtual exchange scheme under the SHARE scholarship.

# Methodology

- Interviews with 9 University Representatives
- Survey with 95 university representatives (IR)
- Survey with 525 students.

# RECOMMENDATIONS

More capacity building  
training required

Actualise inter-ASEAN  
collaborations with a  
scaffolded infrastructure

Conceptualising and  
Defining COIL/VE

Built in online support  
to assist COIL/VE  
Programme  
Development

Agility to adapt to  
changes: From Student  
Dynamics to Technology  
development

# AVEC PORTAL | Background

## COIL (Collaborative Online International Learning) &

**SHARE 2021-2022** has generated new online international education practice among the partner universities with a great success. Over **1600 students** have embraced international collaborative learning through the adaptation of this practice in just over 1 year.

COIL/VE continues to gain attention in the world **with a rapidly growing speed** even beyond the pandemic.

For the ASEAN HEIs to be connected and **to establish valuable and sustaining international institutional partnerships with the world**, engagement in COIL/VE provides many merits to universities and the region itself.

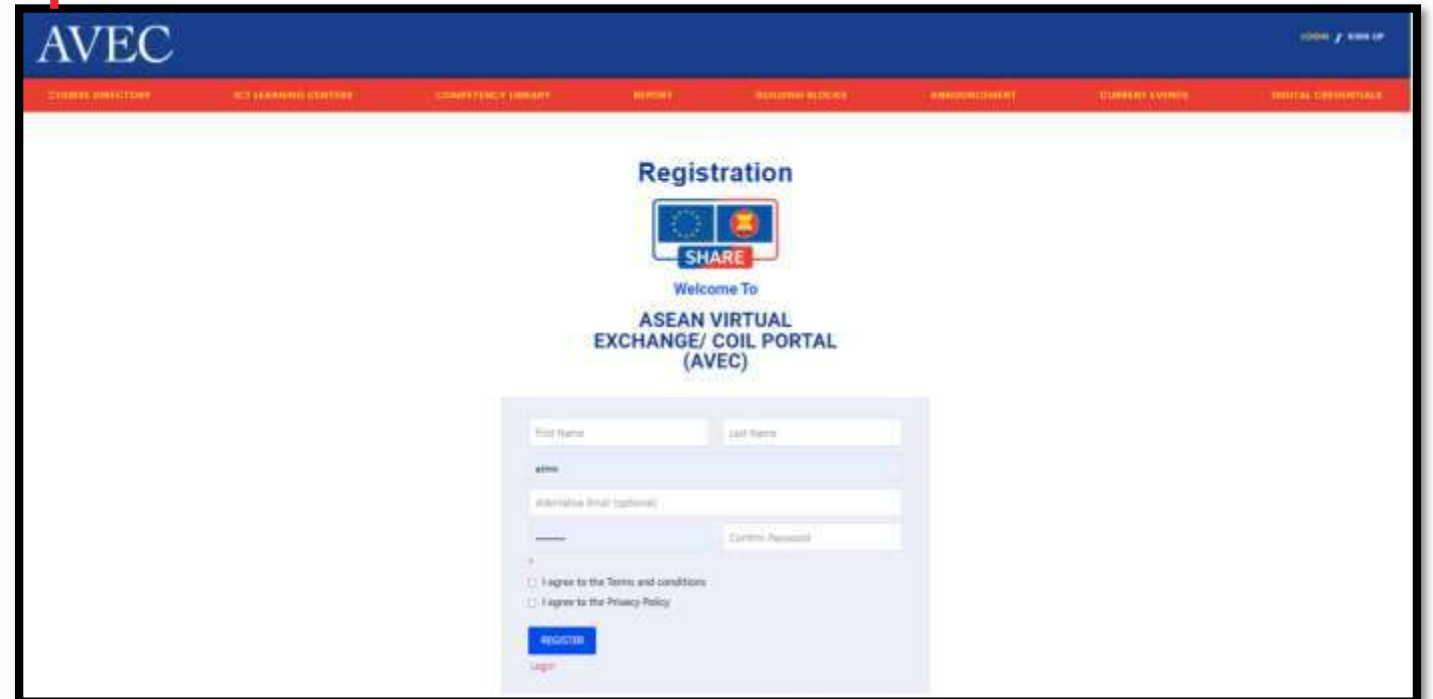

# AVEC PORTAL

The digital platform provides the instructors and students with an array of user-friendly digital tools and features that will help support HEIs in the ASEAN region in implementing these courses.
