About SHARE Programme

The Support to Higher Education in the ASEAN Region (SHARE) Programme is the European Union's flagship higher education programme with ASEAN. The SHARE Programme has been in operation since 2015 and an agreement for a programme extension until the end of 2022 has been reached between the ASEAN Secretariat and the European Commission. The SHARE Extension will see the programme continue its support of the ASEAN Secretariat and ASEAN stakeholders to enable greater harmonisation and internationalisation of ASEAN higher education. A central aim of the SHARE Programme Extension is to catalyse the transfer of ownership of programme outcomes to ASEAN entities and nominated organisations to be embedded within sustainable ASEAN-led structures and processes.

The SHARE Consortium is comprised of the British Council, the DAAD, ENQA, and Nuffic. There are three main components (so-called Result Areas) during the implementation of SHARE: (1) Policy Dialogue, (2) Qualifications Frameworks (QF) and Quality Assurance (QA), (3) Credit-Transfer and Mobility.

Coordinated by the German Academic Exchange Service (DAAD) and ENQA, Result Area 2 (QF/QA) aims at strengthening and further disseminating the ASEAN Qualifications Reference Framework (AQR) and the ASEAN Quality Assurance Framework (AQAF), including supporting the work of related EQAAs with a focus on higher education. Within the frame of bi-regional dialogue and mutual exchange, the European partners share their experiences and good practices from the European Higher Education Area and build on the work already underway across the ASEAN region, especially on the achievements by the AQR Committee and the ASEAN Quality Assurance Network (AQAN).

For more information on the SHARE Programme, please visit www.share-asean.eu

About Bina Nusantara University (BINUS)

BINUS University is a world class higher education institution offering international standard courses at both the undergraduate and postgraduate degree levels. Initially founded as a provider of vocational training focused on computer systems and informatics, the university has grown to offer a full range of programs throughout the campuses in Jakarta, Tangerang, Bekasi, Bandung, Semarang, and Malang. BINUS University, officially established in 1996, is a part of the BINUS Foundation dating back to 1974.

BINUS University has strengthened its emphasis on IT as the central pillar of its well-earned reputation for excellence through the implementation of IT-based processes in course curricula and at every level of internal operation and has received recognition from international rating agencies such as Quacquarelli Symonds (QS), Times Higher Education, and AppliedHE.

With an overall rating of five QS stars, BINUS achieved the maximum rating in inclusiveness, teaching, employability, and social responsibility. It also ranks among the leading universities on the QS Graduate Employability Rankings 2022 and the top 450 on the QS WUR by Subject Ranking for Computer Science. BINUS University is the top private university in Indonesia, included in the QS World University Rankings 2022, and the top 220 universities in the QS Asia University Rankings 2022. International accreditations awarded to our programs include AACSB, ABET, and TEDQUAL.

The university's commitment is to ensure that 2 out of 3 graduates work in global companies or become entrepreneurs. Students will not only enjoy on-campus learning experiences but experiential learning through various program, which provides an opportunity for students to experience working in the real world for 1 year or choosing one of the following seven programs: internship, community development, research, start-up business, study abroad, further study, and specific independent study off-campus.
